

Codefu: Mini Dojo (K-1st)

Monday 3:45-4:45 pm

We prioritize our students' social and emotional growth, using coding as a medium to teach mathematics, language, and art.

Our curriculum, developed by a team of teachers and professors from Stanford to UC Berkeley, employs a scaffolding system. This approach allows students to progress through various levels in each section before moving on to new topics. During our Upper Grade CodeFu Dojos, students will create a variety of projects from apps/games to personal websites to coding robots to help solve real-world problems like pollution or overpopulation - beginning with block based languages & continuing to programming languages such as: HTML, Css, JS, Ruby, & Python.

Manga (2nd-5th)

Monday 3:45-4:45 pm

Students discover this unique Japanese art form that's spread across the globe. Young artists take pencil to paper and learn the fundamentals that make manga so iconic like how to draw expressive faces and striking hairstyles. Even more, the instructor guides students through its history and cultural significance. As they develop their artistic skills, students add bodies, outfits, backgrounds, and dialogue to create their own characters and scenes. At the end of the course, students create and proudly showcase their own original manga story.

Pickleball 2nd-5th

Monday

3:45-4:45 pm

Learn how to play the fastest growing sport in America! We teach kids the basics including forehands, backhands, the serve, the basics of rallying, and the rules of play and then get them playing this fast-paced and fun sport. We supply the paddle, the balls, and then set up a Pickleball court right on the blacktop. We emphasize developing children's self esteem, healthy competition, and teamwork. And at the end of each session children earn a medal!

Classes taught by Higgins Tennis & Pickleball certified pros. Over 600 children a week participate in their programs all over California. Company owner, William Higgins, ran the largest junior tennis center in the world, the Barnes Tennis Center in San Diego and played on the ATP professional tour.

Print-tacular! 4th-8th

Monday

3:45-4:45 pm

Join our after-school Linoleum Cut Printmaking Class and explore the exciting world of relief printing! In this hands-on class, students will learn how to design a pattern, transfer it onto a linoleum block, and carve their design using a variety of printmaking tools. They'll discover different carving techniques to create texture and depth before rolling on ink and pressing their prints onto paper and tote bags. This engaging process encourages creativity, patience, and craftsmanship, giving students a unique opportunity to create bold, handmade prints they can proudly display or use. Whether beginners or experienced young artists, all students will enjoy experimenting with this fun and dynamic art form!

Pokemon: Build & Battle 1st-4th

Tuesday 3:45-4:45 pm

Welcome to Pokémon: Build & Battle, where the world of Pokémon meets math, literacy, and strategic thinking! This program invites young trainers to explore the art of building powerful Pokémon trading card decks, while developing essential skills in problem-solving, mathematics, literacy, and strategic decision-making. Students will have the chance to battle each other within a fun, competitive, and supportive learning environment. Each day will focus on building different aspects of the game—deck construction, understanding card abilities, math for calculating damage, reading comprehension for card details, and strategy for winning battles. By the end of the program, students will participate in a culminating tournament where they can showcase their skills!

Ceramics 2nd-4th

Wednesday 2:45-4:00 pm

Get ready to roll, pinch, and sculpt in this 8-week ceramics adventure! Kids will bring their ideas to life, creating two unique projects while learning essential hand-building and sculpting techniques like slab-building, coil-making, and carving. They'll explore every step of the process, from shaping their creations to glazing and firing them into durable, glossy works of art.

Taught by a talented ceramicist and teacher, this class makes 3D art fun and accessible, with plenty of room for creativity (and messy hands!). By the end, each student will take home their fired masterpieces and the skills to keep creating. Come slip into the joy of clay! *Class Price Includes a Material Fee*

Famous Artists K-1st

Thursday 3:45-4:45 pm

Nexplore Famous Artists introduces students to beloved artists from Georgia O'Keeffe to Pablo Picasso, exploring their unique styles and artworks. In each lesson, an experienced instructor introduces students to a famous artist's work by examining a particular piece and what makes it unique. Then, students will use that technique in their own work of art. As they construct artistic representations that emulate the artists' famous works, they explore the rich history of art and the tools and techniques that make masterpieces.

Graphic Design 4th-8th

Thursday 3:45-4:45 pm

Interested in drawing, art, or design? In this class, you'll learn how to use your doodling skills for real, by doing design projects for local nonprofits or small businesses. You will learn how to make professional posters and art that people want to pay for, and you'll ultimately design posters and ads for real organizations with good causes. Our students' work has been used in ads and online Instagrams posts by the Special Olympics, Martha's Kitchen, and local shelters.

Jewelry 2nd-8th

Thursday 3:45-4:45 pm

Join us for an exciting after-school class where kids can explore the art of jewelry-making! Perfect for beginners, this hands-on experience inspires young creators to design their own unique treasures. Students will learn age-appropriate techniques while experimenting with textures, vibrant colors, and fun patterns to bring their sparkling ideas to life. This class goes beyond crafting, helping kids build fine motor skills, strengthen hand-eye coordination, and develop an eye for design. From beading basics to creating one-of-a-kind pieces, every session is a blend of creativity and skill-building. Don't miss this chance to turn imagination into wearable art!

CodeFu: Upper-Grade Dojo 2nd-4th

Thursday 3:45-4:45 pm

CodeFu is the nation's top after-school coding program, blending technical skills with social and emotional growth. Kids explore topics like cybersecurity, video game development, and robotics while learning to solve real-world problems using languages like HTML, Python, and Ruby. Our curriculum, developed by a team of teachers and professors from Stanford to UC Berkeley, employs a scaffolding system. Our educator-designed curriculum uses a scaffolding system to ensure steady progress, starting with block-based coding and advancing to programming languages. Each class begins with 10 minutes of Tai Chi to promote focus, and students create apps, websites, and robots while fostering creativity, problem-solving, and self-empowerment.
